

EARTH DAY 2022

Telespazio UK Investing in our Planet

Telespazio UK employees are making daily steps towards better sustainability

It is often the small, every day actions that make the most difference over time. Telespazio is working with employees to make small steps that can have an impact. We are at the beginning of our journey but know it is imperative for companies of all sizes take action and embrace the benefits of a green economy.

Telespazio is committed to educating and supporting its employees to consider their day-to-day actions with sustainability in mind. Employees are being supported and encouraged to look at their own personal carbon footprint and consider small changes that they can make in their daily life/ habits for the benefit of themselves and the planet.

The Earth Day 2022 theme is [Invest In Our Planet](#). What Will You Do? Telespazio UK employees have been making pledges to make our world a better place. Why don't you join us by making your own pledge?

How are we doing so far in 2022?
